 - **Revised Comprehensive Signage Plan**

The Hangar 2 Signage Design Team presented the proposed revised signage plan, which primarily features a change of allowing one projecting sign for a tenant that takes all the retail storefronts on the east side or west sign. Currently, there is one tenant that has rented all the retail storefront space on the west side. The location of the projecting sign could be either on the east or west corner of the building or to the left or right of the main entrance.

Carla requested that the CSP require any lighted signs to have dimming functionality.

Kevin requested that the Design Team submit a brief synopsis of the changes between the current CSP and the proposed CSP.

Carla also requested a inventory of current signage on the site.

The three committee members present for the discussion recommended approval of the revised Comprehensive Signage Plan (CSP) subject to the receipt of the three items above. Once those three

items are received, the revised CSP with the submitted documents and the committee members' recommendation will go out to the full LDRC for an email vote.

- **Adjourn**

10:26 am

The meeting was adjourned at 10:26 am.
